# CONTENTS

#### **Section A Number**

Self Assessment

4 Adding Decimals

1 Whole Number Operations

2 Multiples of Whole Numbers

5 Changing Fractions to Decimals

Section	В	Measurement
00011011	_	model officine

6 Changing Fractions to Percentages

7 Changing Decimals to Percentages

	Self Assessment	21	7	Solids	28
1	Lengths I	22	8	Volume	29
2	Lengths II	23	9	Area, Perimeter, Volume Review	30
3	Measurement Conversions	24	10	Measurement Overview	31
4	Area	25	11	Measurements We Use	32
5	Circles - Area & Circumference	26	12	Time	33
6	Mass	27	13	Review	34

### **Section C Algebra**

	Self Assessment	35
1	Simplifying Algebraic Terms	36
2	Replacing Values into Algebraic Expressions	37
3	Solving Equations I	38
4	Solving Equations II	39
5	Plotting Points	40
6	Graphing Points	41

7	Drawing Graphs	42
8	Expanding Algebraic Expressions	43
9	Factorising Algebraic Expressions	44
10	Working with Patterns	45
11	Algebra Overview I	46
12	Algebra Overview II	47

#### **Section D Geometry**

Self Assessment	48	8	Line Symmetry	56
Angles - How We Recognise Them	49	9	Rotational Symmetry	57
Angles - How We Measure Them	50	10	Reflection	58
Angles - General Properties	51	11	Rotation	<b>59</b>
Triangles	52	12	Translation	60
Parallel Lines	5 <i>3</i>	13	Isometric Drawing	61
Quadrilaterals	54	14	Nets	62
Polygons	55	15	Geometry Overview	63
	Self Assessment Angles - How We Recognise Them Angles - How We Measure Them Angles - General Properties Triangles Parallel Lines Quadrilaterals Polygons	Self Assessment48Angles - How We Recognise Them49Angles - How We Measure Them50Angles - General Properties51Triangles52Parallel Lines53Quadrilaterals54Polygons55	Self Assessment488Angles - How We Recognise Them499Angles - How We Measure Them5010Angles - General Properties5111Triangles5212Parallel Lines5313Quadrilaterals5414Polygons5515	Self Assessment488Line SymmetryAngles - How We Recognise Them499Rotational SymmetryAngles - How We Measure Them5010ReflectionAngles - General Properties5111RotationTriangles5212TranslationParallel Lines5313Isometric DrawingQuadrilaterals5414NetsPolygons5515Geometry Overview

#### Section E Statistics

Self Assessment	64	6	Statistical Graphs IV	70
Frequency Tables	65	7	Surveys	71
Averages	66		Self Assessment	7 <i>2</i>

# A Note for Students

If you are good at maths you will probably enjoy it and put more effort into it. If you find maths difficult, chances are you won't like it very much either. I hope this workbook will help you do better in this subject and that you will come to enjoy it more.

The work in this write-on workbook is extra to class work given by your teacher. Each page is introduced with a short explanation to jog your memory and an example to show you how it works.

There are lots of puzzles and codes to do so it should be lots of fun.

Actually doing maths is the best practice and the most likely way for you to learn to understand it. This book is a fun way to reinforce what you have learned in class.

# A Note for Parents / Caregivers

When your son/daughter completes this book they will have a good understanding of mathematics and will be ready for the next level.

A scientific calculator is essential for mathematics and this book helps students use the various keys that will enable them to calculate accurately.

the Akur
